## Interview with Youri Florijn, Manager

**Q** What prompted you to buy GemmaCert?

**A** Because I wanted a reliable tool to test the correct levels of THC and CBD in our cannabis flowers.

**Q** How do you use GemmaCert at your business?

**A** I always test a couple of buds from every cannabis purchase and you won't believe how many times I was introduced CBD weed instead of THC weed!!!

**Q** What feature do you love most from GemmaCert?

**A** I love the App – easy to use and very helpful.

**Q** Would you recommend others to purchase a GemmaCert device?

**A** Of course, I will. I even did it already through the Prix D'ami social network.
